LETTER FROM THE PRINCIPAL ◀

Blessings friends,

We continue to prepare the way of the Lord during this Advent season. In this special time of hope and waiting, we draw closer to each other and especially to God who sent His only son to save us from our sins. During Advent, we look for new ways in which God enters our lives. We open ourselves to discovering Christ in all things and each other and we continue *Becoming Fully Alive Through Education and Love*.

It's hard to believe that our students and faculty are just a week away from our Christmas break. **Please note: due to our adjusted calendar this year, our exams will be January 15, 16 and 17.** An [exam schedule](#) has been shared with students. I think it is important over the Christmas break to encourage your daughters to strike a healthy balance between studying for exams and taking some well deserved time away from school work. As much as we strive for excellence at NDA and want our students to be successful in their coursework, I also want them to take time to relax, rejuvenate and spend time with family and friends throughout the Christmas season.

I would like to thank our students for their generous contributions to our Hygiene Drive this year and all they do to make a difference in the lives of others. You can see several examples below of the wonderful work our students are doing this school year. I would also like to call your attention to our Honor Roll lists which are mentioned below as well. Our students have been very diligent in their studies this year and their commitment to education is evident in the large number of students on the Honor Roll for the first quarter of this year. I commend them for their dedication and hard work!

May this holy season of Advent fill you with peace, hope and many special blessings, and may you be reminded of God's presence in your life each day.

In Notre Dame,

Mr. Jack VonHandorf

POWERSCHOOL UNIFIED CLASSROOM UPDATE ANNOUNCEMENT ◀

On December 14 or shortly thereafter, we expect an upgrade to PowerSchool's Unified Classroom will be installed. This is a larger make over than PowerSchool usually releases in the middle of the year. Normally this would be something that comes out in the summer between the school years when everyone has more time to adapt to the changes. This upgrade will have some new screens for the student and parent view and some new ways for students to connect to their Goggle Drives that we hope will help streamline their work in the Unified Classroom portal. Most of the new look will be in the teacher portal view and include new features that should help teachers serve the students better in presenting class materials and in grading student projects more easily. We appreciate your patience as we adjust to the new look and features in the weeks ahead.

MAKING A DIFFERENCE

BECOMING FULLY ALIVE THROUGH EDUCATION AND LOVE! ◀

On Wednesday, December 5, NDA's Sign Language Club visited the Urban Education Center after school and made a difference in the lives of the students there! Our NDA students taught the girls and boys in the after school program an introduction to basic sign language. Each NDA student paired up with an Urban Ed student and taught them the alphabet, how to sign their name and sign "My name is...". They also taught them how to sign "Jingle Bells". The club co-presidents are seniors Paige Heimbrock and Kara Brunot, who are also regular volunteers at the Urban Education center.

MATH CLUB LIVING THE MISSION! ◀

The math club at NDA has been visiting Newport Primary School this semester and working with the coding club in the after school program. The girls have really enjoyed working with the students there and helping them with their math homework after school. They have also learned a lot about coding and some of the apps that they use on a daily basis in that club. The math club was awarded one of the club grants this year and used this money to buy the coding club new Botley Robots. These robots are controlled through an app on their iPad in which the students send codes to the robots in order for it to perform certain tasks. We cannot wait to use these robots with the coding club in the future!
