

NOTRE DAME ACADEMY

Educating Women to Make a Difference in the World

Panda Press Weekly

January 21, 2026

THE *nda* LIFE

Dear Panda Families,

Each week, the Panda Press offers a glimpse into the many ways Notre Dame Academy lives out its mission. From academic achievements and service opportunities to performances, athletics, and moments of prayer and community, these stories remind us why NDA is such a special place. They reflect a community committed to educational excellence, empowering young women to make a difference, and encouraging students to step beyond their comfort zones. We are grateful to our students, faculty, staff, and families who bring this mission to life each day and continue to inspire one another through their dedication and faith.

In that spirit of celebration, we are pleased to recognize the outstanding work of our Theatre Department and students for a successful showcase titled Roadtrip. This engaging performance highlighted creativity, confidence, collaboration, and courage—hallmarks of an NDA education. We commend our students for sharing their talents and our directors for fostering an environment where students feel supported to grow, take risks, and shine with grace.

As we celebrate these successes, we also want to take a moment to reaffirm our shared commitment to the expectations that help Notre Dame Academy remain a safe, respectful, and mission-driven learning environment.

Recently, we have seen an increase in students wearing items outside of the approved uniform guidelines, including sweatpants or pajama pants under uniform skirts and flared leggings that do not meet dress code requirements. We have also noticed more frequent instances of students forgetting their ID and lanyards, leaving the building outside of approved dismissal procedures, and requesting trips to vehicles during the school day. These behaviors create safety concerns and disrupt the smooth operation of our school.

At Notre Dame Academy, our expectations are rooted in our mission to walk humbly, serve boldly, and shine with grace. Following school policies—including dress code, identification procedures, and dismissal protocols—helps students develop responsibility, respect for community norms, and care for one another's well-being.

All students are expected to adhere to NDA policies at all times. Moving forward, accountability measures will be enforced more consistently, including detentions and uniform checks when necessary. Additionally, students will no longer be permitted to go to their vehicles during the school day unless an adult is available to escort them. We ask families to help students plan ahead each morning to avoid disruptions during the day.

Thank you for your continued partnership and support. Together, we remain committed to forming young women of faith, integrity, and leadership—ready to make a difference in the world.

CALLING ALL MENTORS

HELP SHAPE THE FUTURE OF OUR NDA YOUNG WOMEN

Parents, grandparents, alumnae, and young professionals—we invite you to partner with Notre Dame Academy by offering a summer mentorship or shadowing opportunity for one of our students. If you have a profession, skill set, or talent you would be willing to share, your guidance could make a meaningful impact as our young women explore career paths and develop real-world experience.

We are currently building a database to share with students who are eager to learn more about their futures. Whether your opportunity is formal or informal, short-term or ongoing, your willingness to mentor helps open doors, spark curiosity, and build confidence. If you are interested in participating, please let us know—we would love to connect our students with the incredible expertise within our NDA community.

Please email: turners@ndapandas.org with your name, area of expertise and contact information.

THINKING AT THE HIGHEST LEVEL

SOPHOMORE AP SEMINAR PRESENTATIONS

Our Sophomore AP Seminar students recently showcased exceptional work through their presentations, offering a powerful example of what high-level thinking looks like at Notre Dame Academy. These young ladies researched current, real-world issues, analyzed multiple perspectives, and presented their findings with clarity, confidence, and purpose. Each presentation was supported by strong evidence, thoughtful reasoning, and meaningful analysis—demonstrating not only academic rigor, but also the ability to think critically and communicate effectively. We are proud of the depth of inquiry and intellectual maturity displayed by our sophomores as they continue to grow as scholars and leaders.

EXPLORING FAITH, SCIENCE AND COLLABORATION

FAITH MEETS DESIGN IN OUR NEW 1906 IDEAL INNOVATION SPACE

Notre Dame Academy's new 1906 IDEAL Innovation Space is quickly becoming a hub for creativity across all disciplines - including religion.

Freshmen religion students recently brought the story of Noah's Ark to life through a hands-on design challenge that blended faith, engineering and teamwork. Working in small groups, students designed and constructed scale replicas of Noah's Ark using popsicle sticks, hot glue, duct tape and corks, following precise measurements and design guidelines.

The project challenged students to think critically and collaboratively as they planned, built and tested their arks for buoyancy. Once completed, each ark was placed in water and loaded with marbles - representing the animals - to see which design could hold the most weight while remaining afloat.

Beyond the engineering challenge, the project encouraged deeper reflection on the biblical story itself. By combining careful planning, problem-solving and creativity, students experienced the story of Noah in a new and tangible way.

"This project is a great example of how the Innovation Space supports learning across every subject area," said NDA Principal Mrs. Lisa Timmerding. "It allows students to engage their hands and minds while connecting faith to real-world skills."

As Notre Dame Academy continues to expand the use of its 1906 IDEAL Innovation Space, projects like this highlight the school's commitment to educating young women who think critically, collaborate confidently and live their faith in meaningful ways.

NDA STUDENTS EARN TOP HONORS IN SCHOLASTIC ART AND WRITING AWARDS

**Scholastic
Art & Writing
Awards**

Notre Dame Academy students were recently recognized for their outstanding work in the Scholastic Art and Writing Awards, earning an impressive total of 110 awards across Gold, Silver and Honorable Mention distinctions in writing and visual art.

Student writers were honored in a wide range of categories, including poetry, personal essay and memoir, critical essay, short story, flash fiction, journalism and screenwriting. The breadth of recognition reflects both the talent of NDA's students and the strength of the school's writing program across all grade levels.

In addition to writing honors, Melissa Geiman earned a Silver Award for her Modern Art Analyses editorial cartoon, sponsored by The Herb Block Foundation, highlighting excellence in visual storytelling and social commentary.

The success of these students is a testament to the dedication and mentorship of Notre Dame Academy's faculty, particularly within the English and Art departments, who guided and supported students throughout the creative and submission process.

We congratulate all of our award recipients and extend sincere thanks to our teachers for their commitment to nurturing strong, confident writers and artists. Their work continues to inspire students to find their voice and use it with purpose.
