

Dear Panda Families,

As we begin the season of Lent, our Notre Dame Academy community gathered today for our Ash Wednesday Mass, marking a time of reflection, prayer, and renewal. This sacred season invites us to deepen our faith and embrace opportunities for growth in service to others, aligning with the mission that guides us each day.

We were delighted to have so many guests attend this mass with us and as always, visitors are always welcome. At the conclusion of our mass, two representatives from the Peer Ministry Club presented about various faith activities that are offered to them during this time of Lent. This was a great segway into the school wide use of the Hallow App, a new resource to support the spiritual lives of our students, faculty, and families. This app will be available to teachers by the end of this week and hopefully for students on Monday, just in time for students to begin the "Pray 40, Lenten Journey."

Additionally, as we have moved through the last few masses, I have been sharing information with the girls about guardian angels and the part they play during mass, specifically at the offertory. St. Padre Pio told his spiritual children, *At the Offertory, send your guardian angel to the altar with your intentions.* This has been an ongoing discussion throughout this year and I will share the full reflection through the PPW before we end the year. It provides a beautiful representation of what is occurring at the mass and how our angels stand beside us always.

It is a pleasure to also share that just within the past week, I have received two incredible compliments regarding the students. One of my goals this year is to celebrate the goodness of the institution which is truly a reflection of the goodness of your daughters. The owner of Better Blends in Fort Mitchell is eager to partner with our students for internships, entrepreneur workshops, etc. We are in the initial planning stages, but his interest and enthusiasm in partnering with NDA is attributed to the goodness of our students. He said, *NDA (both customers and workers) are the most counted on and the best.* That is an amazing testament to our community. In addition, as our bowling team competed in the state competition this year, they also were noticed in such an outstanding and positive way. The coach of Trinity High School in Louisville (and Proprietor of King Pin Lanes where the tournament was held) sent the following message to our bowling coach Mr. Hampton: *I just wanted to let you guys know the way your girls handled themselves was impressive. I have never seen a team take a semi final loss like this. I thought I had advanced the wrong team. It was impressive to see their support for each other.* What a powerful testament to Coach Hampton and our bowling team!!!

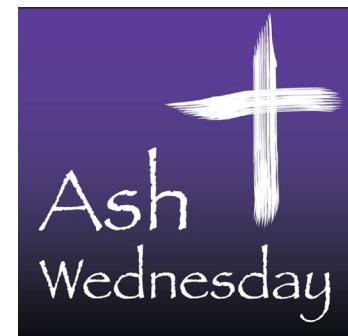

Finally, I want to ask for your cooperation in the parking lot. Recently we have had a few incidents reported to us. Each has involved parents, grandparents, or caregivers. We require that the girls leave at our designated staggered dismissal times to allow for an easier transition out of our parking lot. Seniors and those riding with them are dismissed at 2:59. Juniors and those riding with them are dismissed at 3:03. All other students are not dismissed until 3:06. In the beginning of the year, we also reviewed the areas designated for pick up of a student. Please utilize the theatre lot and the first few rows of the parking lot for picking up students. We ask this for the safety of our students and for the efficiency of exiting our parking lot.

Thank you for your ongoing support of our students and our mission. I look forward to all that lies ahead as we journey through this Lenten season together.

Walk in Faith,

Mrs. Lisa Ruwe Timmerding '97

Anatomy Students Explore the Endocrine System

STEM IN ACTION

ANATOMY COMES ALIVE THROUGH HANDS-ON STEM DISCOVERY

Last week Ms. Meese's Anatomy students started a new unit on the Endocrine System, the body system that's involved in producing and releasing Hormones in the human body. Students embarked on an "Endocrine Scavenger Hunt." Teams of students followed a trail of riddles to find ten strategic stations throughout the building—from Mrs. Timmerding's office acting as the body's "control center" (the Hypothalamus) to the gym representing the "fight or flight" response (the Adrenal glands). This interactive mission allowed students to take note of several essential hormones and their functions. This information has driven their ongoing research into how these powerful chemical messengers impact our daily lives!

VALENTAILS

NDA CARES FOR OUR FURRY FRIENDS

The mission of Notre Dame Academy to educate young women to make a difference in the world permeates through our halls and can be witnessed on a daily basis. A recent outreach collection showcases this service in action and love / passion turned into action.

Megan Fedor (a senior student at NDA) approached the administration this year about supporting the Kenton County Animal Shelter at some point this year. Her passion for animals and furry friends prompted her to recognize an issue and lead her community in supporting it. She, along with junior Emily Stewart, spearheaded a collection last week and the outcome speaks volumes about our students, our community and the spirit of service ingrained in our walls by the founding Sisters of Notre Dame.

Kenton County Animal Shelter received the donations over the weekend and was SO thankful! NDA gave them 238 items and \$2,200!!!! This is absolutely incredible. The students and their families visited with the animals which of course made them cry. They are in desperate need of volunteers to walk and play with dogs so maybe more students can serve these furry friends.

Thank you to our community and to Megan and Emily for making this happen!

"By the sweat of your brow you shall eat bread,

Until you return to the ground, from which you were taken;

For you are dust, and to dust you shall return."

Genesis 3:19
