

THE *nda* LIFE

## Dear Parents,

As we continue our journey through the season of Lent, I am reminded of the many opportunities we have to deepen our faith and serve others in our community here at NDA. Lent is a time of reflection, prayer and acts of charity and I am proud to share with you some of the ways our students are embracing these values here at Notre Dame Academy.

Our students have taken the call of almsgiving to heart by actively engaging in acts of charity this Lenten season. As you will see on the following two pages, our students are collecting bicycles for Catholic Charities Pickett's Corner Ministries and gathering prom dresses and accessories for Cinderella's Closet. These initiatives exemplify the spirit of almsgiving and provide meaningful support to those in need within our community. I encourage you to support these efforts by considering donating bicycles or gently used prom attire if you are able to do so. Your generosity will make a significant difference in the lives of others during this Lenten season.

Additionally, I am continually impressed by the dedication and achievements of our students across all areas of academic and co-curricular activities. From the innovative projects in biology and engineering classes to the commitment to health and wellness demonstrated by our students, their hard work and passion are evident in every activity. I am very proud of the well-rounded individuals our students are becoming and I look forward to celebrating their continued successes in the weeks and months ahead.

As we continue our Lenten journey, let us remain steadfast in our commitment to prayer, fasting and almsgiving. May this season be a time of spiritual growth and renewal for each of us

In Notre Dame,

Mr. Jack VonHandorf

## FEBRUARY OUTREACH

# NEW FAMILY COMPETITION - DRESS DRIVE

During the month of February, our family leadership students will sponsor and lead an outreach activity to benefit Cinderella's Closet. Cinderella's Closet is in desperate need of dresses this year and we are happy to help and support them. What better time than right after the New Year when many families work to clean out closets and make donations? If you have formal gowns, blingy jewelry, formal shoes or just feel compelled to make a monetary donation, please consider helping such a worthy cause (which may benefit some of our very own PaNDAs). Please send in your items over the course of the next two weeks. There will be bins in the lobby for items this week. The flyers found [HERE](#) provide more details regarding what they need.

## EXPLORING THE GENETIC PALETTE

# CONFIRMING PHENOTYPE WITH GENOTYPE

Students in Mrs. Proudfit's AP Biology class recently explored how small genetic changes can change our ability to perceive the world around us. In a captivating exploration of genetics and taste perception, students focused on the TAS2R38 taste receptor gene and learned how it can confer the phenotype of the ability to taste the chemical phenylthiocarbamide (PTC) and other bitter flavors. In this hands-on lesson, students had the opportunity to test their own TAS2R38 taste receptor gene to determine whether they possessed taster or non-taster alleles (Version) of the gene.

They used the Polymerase Chain Reaction to copy their DNA samples and Gel Electrophoresis to analyze their DNA. Through this lab, students gained insight into the correlation between genotype (DNA) and taste perception. They explored how variations in the TAS2R38 gene can influence a person's ability to taste bitter flavors such as broccoli.

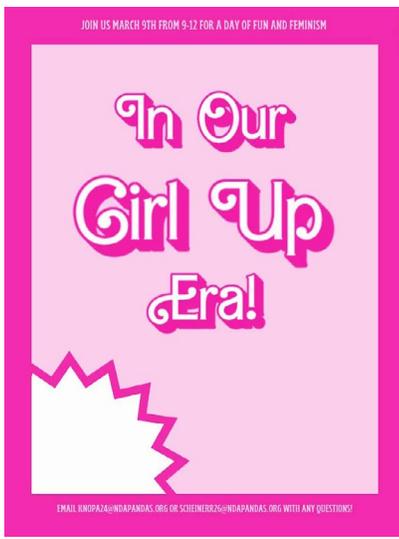

Students truly enjoyed learning about genetics and its impact on our everyday lives and they certainly were enthusiastic about using micro-pipettes as well!

## MEMORIES PRESERVED

# JUNIOR SERVICE PROJECT AT MADONNA MANOR

Our juniors who serve at Madonna Manor for their Junior Service Project have been working with the Kenton County Library to complete oral history interviews with the residents. They students have been trained how to conduct and record their interviews. The library will then archive these history interviews and make them available to the residents who participated and their families. What a great way to give back by spending time with the residents and honoring their past!

The students continue to be exposed to various ways to remain active and strive for a healthy lifestyle. Thank you to Mrs. Tucker for providing various opportunities to our students.

## JETS NEWS STUDENTS SHOWCASE THEIR ENGINEERING TALENTS

We are excited to offer the JETS club to our students. JETS stands for - Junior Engineering Technical Society. Technology Student Association, TSA, hosts the annual TEAMS (Test of Engineering Aptitude, Mathematics and Science) Competition, a nationwide engineering competition for students in high school. The students are encouraged to practically apply their engineering knowledge to solve various problems in a 80 question Multiple Choice test. Then, they have a problem solving session to design and build to their designs. This past Wednesday, they were asked to design a collapsible building with a door that opens completely by pulleys. These products and their solutions were videotaped and entered into a contest. Each groups' results will be shared in May. By utilizing their problem solving skills and applying their knowledge, students are already working towards making a difference in the world.
