

Interested in a technical career or engineering? Want to see what goes on *behind* the scenes? Not sure what types of careers are available to you?

Join The General Electric Engineering Explorers

The program is designed for high school students to witness first-hand what it is like to work in the world of Engineering. You'll learn about a wide variety of career options in fields such as Jet Engine Design, Six Sigma Quality, Manufacturing, Process Planning, Materials and much more! The program will be held one evening per week for 12 weeks. Total cost to students is \$20.

Kickoff Night is Tuesday, Sept. 24th @ 7:00, at GE Headquarters in Evendale. More information will come when you register for this night!

You **must** register via this link:
